OUR GREAT MEN.

In the small towns, and in the country, there are thousands of great men who are never heard of fifty miles from their homes.

Take a ride through a farming community and when you have a big house pointed out to you, the owner of which successfully farms several hundred acres of land, you have found an unknown great man.

And you ride from one end of the country to the other, and you will never be out of sight of the homes of unknown great men of this description.

There are a dozen, or a hundred, successful, useful, worthy men to every man who really is poor. Every good mechanic, on his way to become a foreman, superintendent or employer is a successful man. We are a nation of rich men; that is the reason our country has such a prominent place under the sun.

ADVOCATED THE EMBARGO.

Farmers in this section have been taken off their feet by the attitude of Congressmen Fess of this district on the high cost of living problem. If published reports are true the Congressman has assumed an attitude that is directly against the success of the farmer. According to the report our representative has openly declared for the embargo on foreign shipments of food products to force down the prices at home. The whole tendency of the present day is to place the blame for present prices to the farmer. The trend of affairs is to make a goat out of him and unless farmers are on the alert it will be done.

OUR INTERESTS DATES.

Liberty bond holders took part in the eighty-eight million dollars Uncle Sam distributed for interest for the third issue due September 15th. On October 15th comes another pay day and so in November and December. On the fifteenth day of each of eight months of the year Uncle Sam will visit all bond holders in the payment of his interest. These months are March, April, May, June, September, October, November and December.

We read that food prices are coming down. The most notable examples are those who sell to the packers. What the packer has to sell to the consumer is holding its own.

An exchange states that the right way to pronounce Mexico is "Messico," this being the Mexican way. We are all agreed that from the condition of affairs in that country the pronunciation is both correct and appropriate.

The war tax on sodas, ice cream, and several items that have been petitioned for repeal by hundreds of thousands of people, will stand according to congressional leaders. The government is running far behind in revenue and no tax repeals can be expected soon.

One example of governmental blunder is the picture of 17,000 automobiles and trucks at one army camp in Maryland. These machines have stood in the open exposed to all the elements for ten months. The loss by damage is said to run into the millions. There is every indication that this property has been allowed to go to waste under pressure of automobile concerns and truck manufacturers to keep them off the market.

How several million men expect to make a living by not working is beyond us. A strike benefits no one. As to the steel strike these men are being paid extremely high wages and are not deserving of more money or shorter hours. The average of more than two million steel workers is \$8.28 a day. When it comes to the day toiler earning more than the professional man, teacher, professor or minister, it is time to call a halt or else pay these men who have spent time and money preparing for their work, more money. Such a condition would keep the coming generation out of our schools and colleges which would be a step backwards.

City folks are complaining about milk prices and as usual the farmer or dairyman is held to blame. Up near Cleveland the officers of an organization of dairymen were indicted for price fixing but at the trial no proof could be obtained and the jury acquitted the accused. City folks are not deserving of sympathy when it comes to high prices of milk. Under the Ohio laws it is almost impossible for a farmer to sell milk in the city. The requirements for milk standards are such that only distributing companies can handle milk or retail it. Everything is done to make the milk costly and at the same time reduce its quality that the city folks should be compelled to pay a higher price than at present for a real product of some of our fool laws.

SUNDAY SCHOOL LESSON

LESSON FOR SEPTEMBER 28

REVIEW: JESUS OUR SAVIOUR AND KING, OR PARABLES OF THE KINGDOM.

The method of review should be determined by the grade of the class. For the Primary the review should center in the topic, "Jesus and the Children;" the Junior, "Choosing Jesus as Saviour;" Intermediate, "Accepting Christ's Program for Our Lives;" for the Senior and Adult grades the subject of the church, noting its membership, ordinances, worship, and service. A better way would be to study more fully the parables of the kingdom as set forth in Matthew 13:44-50.

1. The Parable of the Hired Treasure (v. 44).

The usual interpretation of this parable, making Christ the hired treasure for which a sinner must give up everything in order to buy his salvation, must be rejected for the following reasons: (1) Christ is not hidden in a field, but has been lifted up and made a spectacle to the world. (2) Nobody has ever been obliged to buy the world in order to get Christ. (3) Salvation cannot be purchased, for it is God's free and gracious gift. (4) No warrant is ever held out to a man to conceal his religion after it is obtained.

1. The field. This is the world (v. 48). Fortunately this landmark has been made by Christ himself. 2. The treasure. In Psalm 135:4 we are told that Israel, the chosen people, is his treasure. The same truth is set forth in different places and ways (Deut. 7:8-9; 14:2; 26:18; 32:8, 9). When Christ uttered this parable the ten tribes were already concealed from human observation, and as to the rest of Israel it was a prophecy of that which was to follow. The kingdom as to its relation and bearing is now hidden. Christ was primarily sent to the Jews; for their sake the field was bought.

3. The Purchaser: the Son of God (John 3:16). None but the Son of God had such resources to buy the world.

4. The purchase price. This was the precious blood of the Son of God, which is worth infinitely more than silver and gold and the treasures of the earth (1 Peter 1:13, 19; Isa. 53).

11. The Parable of the Merchantman Seeking Goodly Pearls (vv. 45, 46).

1. The merchantman. He is actively engaged in search for pearls. In this search he discovers one pearl of great price. This merchantman is none other than Christ himself. The whole activity of the Father, Son, and Holy Spirit, since the fall of man, has been seeking those who are lost. 2. The purchasing price. The merchantman sold all—impoverished himself in order to buy the pearl. The poor lost sinner could not buy Christ. His salvation is without money and without price. Christ did impoverish himself, turned his back upon the heavenly glory (Phil. 2:6-8) to purchase the one pearl of great price by his own precious blood (Eph. 5:25; 1 Pet. 1:18, 19).

3. The pearl of great price. This is the church. The merchantman will find other pearls of value, but the peerless gem set above all others will be the church which he has purchased with his own blood.

111. The Parable of the Drag Net (vv. 47, 50).

This gives us a picture of the consummation of the kingdom. No one can mistake the meaning here. Note: 1. The sea. This word when used in a figurative sense denotes peoples and multitudes (Dan. 7:3, Rev. 17:15).

2. The drag net. The word "net" in the authorized version is properly translated "dragnet."

3. The net drawn to the shore when full.

4. The assortment made by the angels.

5. The destiny of the bad fish, or wicked men.

He Draws Hearts of Men. On that day when our Lord Jesus Christ was lifted up, all sorts of people were drawn to him. There were those who loved him dearly at the foot of the Cross. There were scribes, and learned men, and aristocrats, and priests, and common people. There were simple peasants from the country, shepherds from the hills, and motley crowd from the city streets. There were Roman soldiers and Galilean pilgrims. It was a crowd representative of all the world's people, and today when he is lifted up even as of old, he draws to himself the hearts of men.

The Work That God Appoints. I am not bound to make the world go right, but only to discover and to do with cheerful heart the work that God appoints.—Jean Ingelow.

Peace That Day in Peace.

You have only a day to pass on earth; so act as to pass that day in peace.—De Lamenans.

To Live in Peace. Peace is the fruit of love; for to live in peace, we must learn to suffer many things.—De Lamenans.

Matthew Arnold's Praise of Bible. Matthew Arnold, a great critic, was anything but orthodox. "As well," said he, "imagine a man with a genius for sculpture not cultivating it by the help of the remains of Greek art, and a man with a sense of poetry not cultivating it by the help of Homer and Shakespeare, as a man with a sense for conduct not cultivating it by the help of the Bible."

Great Men and the Camera. Now that the Times of London has indicated the danger, other observers will join in apprehension lest the constant presence of the camera will make great men self-conscious at historic moments. If it is hard enough for a man to be perfectly natural and quite himself when his picture is being taken for his friends and his family, what must it be to know that his picture is being taken for the public, and perhaps while he is in motion at that! Fortunately for the great man—and perhaps this is all that saves him from visible self-consciousness—the photographer does not yet shoot "look pleasant, please!" through a megaphone.

It seems that Jamestown residents have been having some experience with the blackbirds in the shade trees at night after spending the day feeding in the country. The contents of the half-page ad deals editorially on interesting subjects, treated from a very human standpoint and with appeal to the man outside the church.
